Subject: Proposed expansion of "On the Narrows Marina", Glen Arbor Township, Leelanau County Parcel No. 45-006-203-018-00

We are in receipt of your "Public Notice" for the proposed expansion of the "On the Narrows Marina" in Section 3 of Glen Arbor Township off of M-22. Thank you for providing this information to us.

After a review of the information provided we would offer the following comments:

- Sheet 3 of 7 of the Gourdie Fraser plans provided for review shows an angle parking lot within the right-of-way. (Gourdie Fraser Job No. 10243 dated 12/08/2011). The Michigan Department of Transportation (MDOT) will not allow for a parking lot to be constructed within right-of-way under the jurisdiction of MDOT.
- MDOT will require the approach providing access to the marina be upgraded to current commercial specification.

With regard to the riparian interest area boundaries, I will be forwarding the packet provided to Adam Wygant, Resource Specialist, MDOT, for comment.

I believe this address's the request for comment for the proposed project based upon the information provided. If not please call or email and we will be able to clarify or expand on our comments.

Thank you again for providing us the opportunity to comment on this proposed project.
